Summary

This model includes a criterion for the assessment of data security and protection in accordance with the structure typical of the National Board of Education's peer review criteria, as well as an example process for the implementation of peer learning between two education providers. The evaluation scale is based on the self-assessment criteria commonly used by Karvi of the National Centre for Assessment of Education (missing, starting, evolving, advanced). The model can be tailored to suit different situations and objectives; for example, only part of the criteria can be used or expanded, and peer learning can be implemented by more than two education providers. The criteria and the table section that guides the process are deliberately left in an easy-to-edit format – partly at the expense of appearance.

The perspective of the model is the upper level of the education provider, with an emphasis on processes, responsibilities, communication and evaluation and improvement, rather than technical details.

Process

The following process is an example of a situation in which two training providers implement peer learning related to information security and protection by using the model presented by this tool.

Initially, the organisations agreed on objectives and implementation, such as the schedule of phases and the form of descriptions. Both organisations carry out self-assessments in accordance with the criteria set out in the next chapter. The self-assessment includes an indicator-by-indicator assessment according to the Garfield scale and a brief description of one's own activities (e.g. keywords, listing) and defining strengths/development targets. Self-assessment involves, for example, persons responsible for information security and protection, assessment and improvement, management and representatives of other personnel. After the self-assessment, the organisations meet at a peer learning event, where both organisations open up the results of self-assessment and present their own approaches to the evaluation theme (e.g. system presentations, Powerpoint presentations). The event will exchange information and try to solve the challenges raised by self-assessments. In addition, joint development targets will be identified and measures and monitoring will be agreed upon. The continuation of the peer learning process shall be agreed upon as appropriate and appropriate; in general, however, continuity in peer review and learning is a tried and tested element.

Comparative assessment criterion: Information security and protection in vocational education and training

Criterion: Evaluation area: Information security and protection in vocational education and training		Assessment (Karvi): Missing (P), Start (A), Evolving (K), Advanced (E) (Assessment by indicator or, if desired, by criteria)		Brief description (notes), strengths, areas of development	
Indicators	Examples of evaluation criteria	Organisation A	Organisation B	Organisation A	Organisation B
Objectives and guidelines	<p style="text-align: center;">Security:</p> <p>The organisation has set guidelines and targets for information security.</p> <p>The information security guidelines have been described and communicated to staff, students and stakeholders as appropriate.</p> <p style="text-align: center;">Data protection:</p> <p>The organisation has set guidelines and targets for data protection.</p> <p>The organisation has outlined how to: the principles of compliance with the Data Protection Act in the processing of personal data are implemented (1. Legality, reasonableness and transparency 2. Purpose-related 3. Minimisation of data 4. Punctuality 5. Restriction of storage 6. Data integrity and confidentiality 7. Obligation to demonstrate)</p>			<p style="text-align: center;">Security:</p> <p>Brief description:</p> <p>Strengths:</p> <p>Areas for development:</p> <p style="text-align: center;">Data protection:</p> <p>Brief description:</p> <p>Strengths:</p> <p>Areas for development:</p>	<p style="text-align: center;">Security:</p> <p>Brief description:</p> <p>Strengths:</p> <p>Areas for development:</p> <p style="text-align: center;">Data protection:</p> <p>Brief description:</p> <p>Strengths:</p> <p>Areas for development:</p>

	<p>The data protection guidelines have been described and communicated to staff, students and stakeholders as appropriate.</p>				
<p>Planning and management</p>	<p>Security:</p> <p>The organisation has appropriate security-related guidelines and plans in place.</p> <p>Information security is part of the organisation's risk management.</p> <p>The organization's software and its use are secure: login, usage, data retention/backup, among other things.</p> <p>The organisation's ICT infrastructure is up-to-date.</p> <p>The organization has defined internal and external key roles for maintaining, developing, informing, and internally training security.</p> <p>Staff competence is maintained and developed:</p> <ul style="list-style-type: none"> - Security managers - Staff using information systems in everyday life 			<p>Security:</p> <p>Brief description:</p> <p>Strengths:</p> <p>Areas for development:</p>	<p>Security:</p> <p>Brief description:</p> <p>Strengths:</p> <p>Areas for development:</p>

The Karvi assessment scale

The Karvi assessment scale below is used according to the indicator and criteria.

	PUUTTUVA	ALKAVA	KEHITTYVÄ	EDISTYNYT
Toimintatapa	Ei ole määriteltyä toimintatapaa asian hoitamiseksi. Asiasta on puhuttu, mutta konkreettiset toimet puuttuvat.	Toimintatapa, vastuut, valtuudet ja linjaukset on osittain määritelty.	Toimintatapa, vastuut, valtuudet ja linjaukset on pääosin määritelty. Joidenkin toimintojen osalta tarvitaan tarkempia määrittelyjä.	Toimintatapa, vastuut, valtuudet ja linjaukset on kattavasti määritelty.
Toimintatavan toteutuminen käytännössä (esim. eri vastuualueilla, eri tilanteissa, eri henkilöstö- ja asiakasryhmissä)	Ei toimintatapaa, jota voisi toteuttaa.	Toimintatapaa toteutetaan vaihtelevasti käytännössä.	Toimintatapaa toteutetaan melko kattavasti käytännössä.	Toimintatapaa toteutetaan kattavasti käytännössä.
Arviointi ja parantaminen	Ei toimintatapaa eikä sen toteuttamista, joita voisi arvioida ja parantaa.	Toimintatavan ja sen toteuttamisen arviointi ja parantaminen on satunnaista	Toimintatapaa ja sen toteuttamista arvioidaan ja parannetaan osin systemaattisesti mm. ennakointitiedon, seuranta-, arviointi- ja tulostiedon, muun tiedon, hanketoiminnan, verkostoyhteistyön ja toisilta oppimisen perusteella.	Toimintatapaa ja sen toteuttamista arvioidaan ja parannetaan systemaattisesti mm. ennakointitiedon, seuranta-, arviointi- ja tulostiedon, muun tiedon, hanketoiminnan, verkostoyhteistyön ja toisilta oppimisen perusteella. Strategiset linjaukset määrittelevät kehittämistyötä. Kehittämistyössä hyödynnetään innovatiivisia ratkaisuja.
